

A diagram illustrating the relationship between VMM (Virtual Machine Monitor) and TPM (Trusted Platform Module) components. The diagram consists of a large light gray rectangle representing the CPU. Inside the top half of this rectangle is a solid orange rectangle. Within the orange rectangle, the text 'VMM' is on the left and 'TPM' is on the right. The 'TPM' text is enclosed within a dashed orange rectangular border. The text 'CPU' is centered in the bottom half of the light gray rectangle.
