

Verifier

```
graph TD; subgraph Prover; TE[Target environment] -- "Collect claims" --> AE[Attesting Environment]; AE -- "Evidence" --> V[Verifier]; end
```

The diagram illustrates a verification process. At the top is a blue box labeled 'Verifier'. Below it is a large orange box labeled 'Prover' at the bottom. Inside the 'Prover' box, on the left, is an orange box labeled 'Target environment'. On the right is a blue box labeled 'Attesting Environment'. An arrow labeled 'Collect claims' points from the 'Target environment' to the 'Attesting Environment'. Another arrow labeled 'Evidence' points from the 'Attesting Environment' up to the 'Verifier'.
